DRIVER PERFORMANCE

SAFETY CAMPAIGN - 2023

DRIVER PERFORMANCE

Reaching your destination safely will largely depend on your performance behind the wheel. Numerous factors can hinder your driving performance daily, so when these situations occur, it's essential to practice responsible and safe driving habits to remain calm and in control. Developing good driving habits will significantly reduce the likelihood of accidents and traffic violations.

Remember, safe driving is not only important for your own safety but also for the safety of others on the road.

THE MK WAY

Do it the safe way
Do it the right way
Do it everyday

DO'S AND DON'TS FOR SAFE DRIVING

DO...

Practice defensive driving. Helps to minimize risk and avoid accidents by anticipating dangerous situations and making calculated moves.

Anticipate your surroundings. Becoming more aware of the road activity ahead will help you have more reaction time and additional space for safety.

Plan your trip in advance. Stay up-to-date on weather, road conditions, traffic patterns, and construction to plan for appropriate driving time.

Maintain your tractor-trailer. Ensure you're conducting thorough pre & post-trips before your trip in case something is wrong or needs to be fixed.

DON'T...

Do not drive while distracted. It only takes a second for an accident to occur, but it takes much longer for a fully loaded semi-truck to stop. Limit your distractions, stay alert, and always give the road your full attention.

Do not tailgate. Reduce the risk of a rear-end accident by maintaining a safe following distance and allowing for extra room.

Do not rush. Taking shortcuts can lead to errors and accidents. Develop routines, and practice patience.

Do not forget you're a PROFESSIONAL. Prioritize Safety, Effective Communication, Time Management, Truck Cleanliness, and Respect.

Remember the **SMITH5keys**

KEY 1. AIM HIGH IN STEERING

KEY 2. GET THE BIG PICTURE

KEY 3. KEEP YOUR EYES MOVING

KEY 4. LEAVE YOURSELF AN OUT

KEY 5. MAKE SURE THEY SEE YOU
